[Redacted] Invoice

1. In confirming my phone call of 26 October 1966, attached is an invoice from [Redacted] which makes no reference to any Contract. I called [Redacted] at [Redacted] to see if he could shed any light on the subject. He told me that the items were components sent from [Redacted] when indeed they were items meant for us. [Redacted] then called [Redacted] who told him to send them down to us and bill. I asked him if there was any identification on the boxes and he stated the # 7003/27364-65WP 4/1/65 appeared on the box.

25X1A
25X1A

2. Checking [Redacted] I found that items 24-28 were to be delivered to [Redacted]. However, voucher No. 27364-65 does not appear on [Redacted] (but 27384-65 does) which indicates he could have mis-read the voucher number. Receiving at the depot can find nothing to tie in with the attached freight bill dated 15 September 1966, [Redacted]

3. Can you, or any technical monitors shed any light on the subject so that a Contract can be referenced with the attached bill to enable Finance to pay
